

## The Alphabet Game

Here is a game you can play with your kids without any tools or material.

Choose a category, and take turns listing things alphabetically in that category.

An example of a “food” category: A parent might start off with “Apple.” Then the child would say “Banana.”

Once you and your child have gone through the alphabet then the game is over!

Here are some themes you can use!

- Animals (Ants, Bats, Cats...)
- Things at School (Alphabet, Baseballs, Coloring...)
- Thing you see outside while driving in a car (Airplane, Buses, Cars...)

Tougher Categories for Teenagers

- Places (America, Brazil, Canada...)
- Movies (Alice in Wonderland, Beauty and the Beast, Clue...)
- Famous Figures (Alexander III The Great, Barrack Obama, Charles Barkley...)
