KNOWLEDGE OF CHILD DEVELOPMENT

INFANTS
Babies begin to babble and say simple words.
**Support:** Say the names of things when you show them to your baby.
**Examples:** “This is a flower” or “The flower is yellow.”

OLDER CHILDREN
Children can understand and follow clear directions.
**Support:** Give your child step-by-step directions.

YOUNG CHILDREN
Children start to draw and write.
**Support:** Practice writing the alphabet with your child and give them supplies to draw with.

TEENAGERS
Children surround themselves with friends.
**Support:** Encourage your child to build healthy relationships.
